

Paul Lavis – Blandford St Marys, Dorset

Q1 - How has Classroom Monitor helped your staff?

** Made APP much easier to manage and keep up to date*

** Report writing is much more effective*

** Has pulled together all our assessment systems. We had computerised systems before but all on the school's local network. CM has given us much more flexibility by having it online.*

Q2 - How has Classroom Monitor helped you as Senior Management?

** Monitoring and analysis has become more accessible*

** It still hasn't replaced my own personal tracking – there isn't enough detail on CM yet, we'll need to be using it for a bit longer yet – but it's getting there.*

** CM has helped us improve our judgement making. The levels that CM creates have led to some very involved conversations about what constitutes differing levels in different subjects.*

Q3 - When you have needed help with Classroom Monitor how helpful has the technical support been?

** I have been really pleased with the support – I have mentioned different ideas or little bugs and they have been rectified really quickly – thanks!*

Q4 - Would you recommend Classroom Monitor to other schools? And what is the one thing that you would recommend above everything else?

** I would yes. The one thing being the online access! Being able to access the information from wherever you are is really useful. After that – the fact that CM does the APP thing is very good.*

Q5 - What has the reaction been from other parties to Classroom Monitor? E.g. OfStEd/Parents/Advisors/Governors etc

** Governors can see the value – it fits in with the school vision.*

** Advisors also like the look of it.*
