

Jackie Jackson – Ladysmith Juniors, Devon.

Q1 - How has Classroom Monitor helped your staff?

“It supports APP and gives all subject leaders a picture of achievement in their subject which helps them monitor progress and attainment levels.”

Q2 - How has Classroom Monitor helped you as Senior Management?

“We are able to track core subjects and non core subjects well for the first time, using criteria which turn into levels or points, however you wish to track them. We have consistency across the school, with reports being written to a higher level of detail and assessment and tracking pointing out where improvement needs to be made. Monitoring and tracking is much easier and teachers quickly became convinced of the benefits of quicker and easier reports and easy access to information across year groups at all times.”

Q3 - When you have needed help with Classroom Monitor how helpful has the technical support been?

“Very helpful, they work with our technician and quickly change anything we need changed, or help us when we are stuck, The training was well tailored to enthuse, and tackle areas we were less certain of convincingly.”

Q4 - Would you recommend Classroom Monitor to other schools? And what is the one thing that you would recommend above everything else?

“The report writing facility directly fed from assessment, giving levels of achievement, and a report which is human despite being concocted through software.”

Q5 - What has the reaction been from other parties to Classroom Monitor? Eg Ofsted/Parents/Advisors/Governors etc

“Parents have liked the reports and look forward to the next developments of being able to access information online. As yet governors have not been involved much, but this is a next step which will help them to get a picture of school achievement.”

Q6 - Is there anything else that you would like to add regarding your experiences of Classroom Monitor?

“It is making life easier for us all and giving parents what they need.”
