

## Stephen Harris – Winter Gardens, Essex.

---

### Q1 - How has Classroom Monitor helped your staff?

- *Made APP seem more manageable for more pupils*
- *Less paper!*
- *Immediately identify gaps and this can inform targets for pupils*
- *Good to work with groups and individual pupils*
- *Will be useful to pass on to next teachers*
- *Good to work with between teachers who teach the same pupils*

*“It is clear that Classroom Monitor was developed for teachers to use in the classroom and our teachers have found it easy to access as it has the feel of a paper based mark book. It always holds the most up-to-date assessment information about pupils and all teachers can access the English, maths and science assessment of all pupils in our school. This has helped support our curriculum developments as many pupils are taught by more than one teacher. The school is beginning to use APP on classroom monitor, it serves as an easy to use store of APP data and has removed the need for mountains of paper and folders!”*

### Q2 - How has Classroom Monitor helped you as Senior Management?

- *We now have the potential to look at all data across the school*
- *We are beginning to look at whole school targets.*

*“A key aspect of Classroom Monitor is that all year groups are in a single place. All teachers can input data on the pupils that they teach and Subject Leaders can analyse whole school data to look at trends. This is an area of Classroom Monitor that we are beginning to develop. We hope that it will empower all Leaders across the school.”*

### Q3 - When you have needed help with Classroom Monitor how helpful has the technical support been?

*“The technical support team at Classroom Monitor are excellent. Of particular note is the online help system that gives you almost instant answers to your problems. It has meant that we spend our time using assessment data instead of wondering how to make the system work!”*

### Q4 - Would you recommend Classroom Monitor to other schools? And what is the one thing that you would recommend above everything else?

*“Manageability: We wanted an assessment system that kept information about all pupils in one place allowing us to draw together data from across the school. Classroom Monitor allows us to do that! It also gives us flexible access to our data so that Teachers and Leaders can use assessment information when they want. Thankyou!”*
